INTRODUCING THE POWERFUSE S PP

A special version of the Powerfuse S & the industry's first-ever vapor polishing solution for Polypropylene (PP)

POWERFUSE S PP

SMOOTHING THE WAY FOR WIDER MANUFACTURING POSSIBILITIES

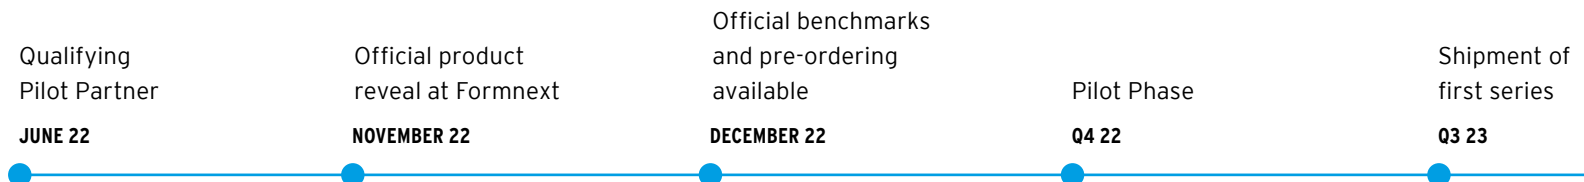

To be revealed officially in November this year at Formnext, the Powerfuse S PP can be fully automated and uses a 100 percent biodegradable solvent. By modifying the internal workings, this new machine has the same size and power requirements as the Powerfuse S but allows a whole new material to be vapor polished.

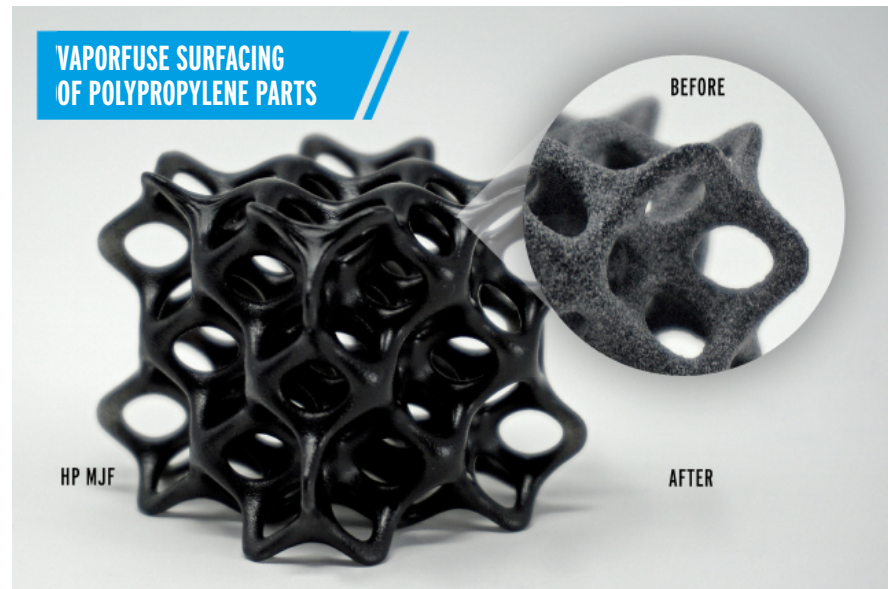

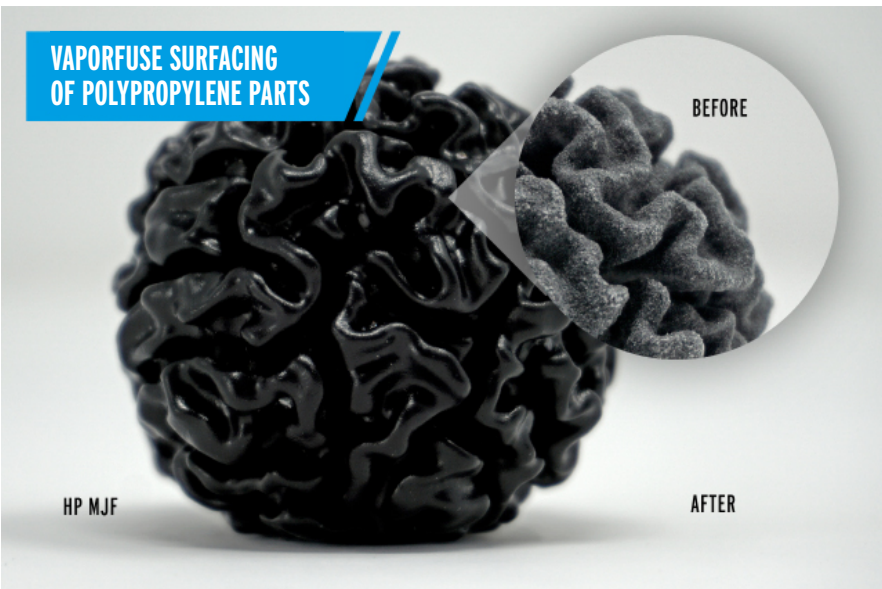

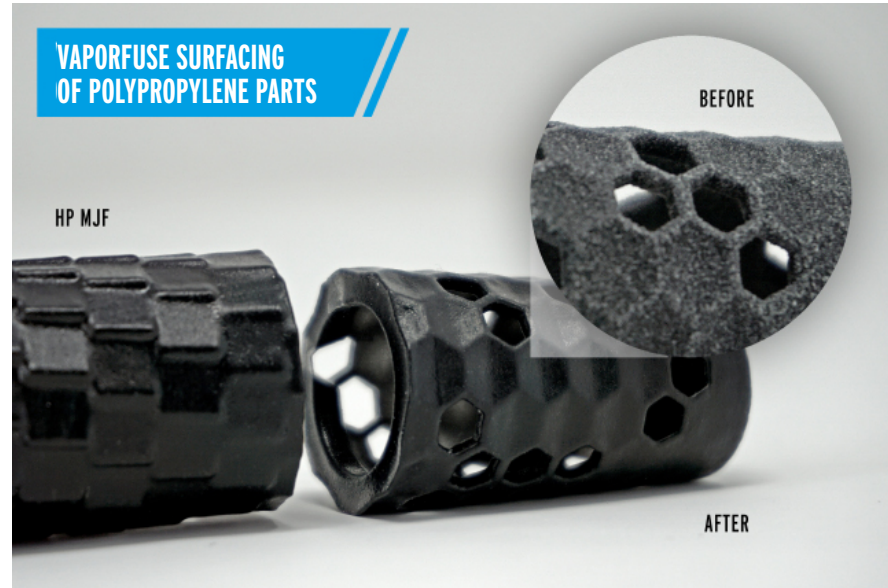

THIS NEW SOLVENT HAS ALREADY BEEN SUCCESSFULLY TESTED WITH ALL COMMON PP MATERIALS ON THE MARKET

Including from the following manufactures

ROLLOUT
